

34th ANNUAL Amersa NATIONAL CONFERENCE

Association for Medical Education and Research in Substance Abuse
AMERSA, founded in 1976, is a multidisciplinary organization of health care professionals dedicated to improving education in the care of individuals with substance abuse problems.

CALL FOR ABSTRACTS CALL FOR SKILL-BASED WORKSHOPS

*“P.R.E.P. for the New Decade – Policy,
Research, Education and Practice”*

November 4 - 6, 2010
DoubleTree Hotel, Bethesda, MD

CONFERENCE HIGHLIGHTS:

Plenary Speakers to include:

- *Brian Mittman, PhD - The Science of Implementation Research*
- *Mary Haack, FAAN, PhD, RN - Web-Delivered Addictions Treatment*
- *Charles P. O'Brien, MD, PhD, and Gene M. Heyman, PhD*
Plenary Debate - Is Addiction “REALLY” Like other Chronic Illnesses?
- *Public Policy Luncheon*
- *Plenary Panel - Delivery of Integrated Clinical Care for Patients with Addictions and Federal Confidentiality Laws*
John R. Knight, MD, Richard Saitz, MD, MPH and Anita Marton, Esq.
- *Betty Ford Award - Sharon Walsh, PhD*
- *John P. McGovern Award - Charles P. O'Brien, MD, PhD*

Also: Research Presentations and One-on-One Mentoring Program

Online submission and detailed instructions available at: www.amersa.org

Deadline: May 28, 2010

For further info., contact: Doreen MacLane-Baeder at 401-243-8460 or doreen@amersa.org

Our Mission

AMERSA, founded in 1976, is a multidisciplinary organization of health care professionals dedicated to improving education in the care of individuals with substance abuse problems. AMERSA's mission is to:

- Promote leadership and improve training for all health care professionals in the management of problems related to alcohol, tobacco and other drugs
- Disseminate state-of-the-art scientific information about substance abuse education and research through means such as the AMERSA National Conference and the organization's journal, Substance Abuse
- Provide mentoring for health professionals interested in becoming teachers, clinicians and researchers in the field
- Promote cultural competence and inclusiveness among health care professionals in their work with individuals affected by alcohol, tobacco and other drug problems
- Promote collaboration among multiple professions including, but not limited to, medicine, nursing, social work, psychology, dentistry, pharmacology, and public health
- Build a national network of substance abuse experts who can advise local, national, and international organizations on health professional substance abuse education through representation at national forums

34th Annual National Conference 2010 CALL FOR ABSTRACTS

Bethesda, MD

AMERSA seeks abstract submissions of recent substance abuse research and substance abuse education innovations.

Abstracts for the 2010 AMERSA National Conference may be submitted to one of three categories:

1. **Research** – These abstracts report the results of original research and must include methods, data and analyses.
2. **Program and Curricula Evaluation** – These abstracts report the results of evaluations of innovative programs and/or education curricula and must include methods, data and analyses.
3. **Clinical Case Presentations** – These abstracts describe an illustrative case that reinforces specific learning objectives for substance abuse and medical education.

Abstract presentation formats include:

Oral presentations are clustered into concurrent theme-based 90-minute sessions with each abstract presentation ten minutes in length followed by an additional 5 minute comment/question period.

Poster presentations are displayed during a 90-minute evening poster reception with the attendant author(s) available to discuss and present the poster

Note that some program or curriculum innovations may best be presented as a workshop, not abstract, in order to capitalize on time for detailed discussion or skills development. See the CALL FOR SKILL-BASED WORKSHOPS section.

ONLY COMPLETE ABSTRACTS WILL BE CONSIDERED FOR PRESENTATION. ABSTRACTS DESCRIBING PROJECTS WHICH ARE IN PROGRESS AND LACK DATA ANALYSIS WILL NOT BE ACCEPTED. To be considered complete, abstracts must describe a completed research project, including descriptions of methods, results and conclusions; a completed program and curricula evaluation abstract, including evaluation methods, findings and conclusions; or a completed clinical case, with specific learning objectives that are generalizable and supported by the case.

Abstracts which meet these criteria and are accepted for presentation will be published in AMERSA's peer-reviewed journal, Substance Abuse. Abstract authors are also encouraged to submit a manuscript of their work for consideration for publication in Substance Abuse.

Submission Instructions:

1) Abstracts may be submitted in one of two ways: (a) electronic online submission through the website www.amersa.org, or (b) an emailed attachment, in Microsoft Word format, to admin@amersa.org. For Word documents, type must be 12-point and single-spaced. Word document submissions may include a small graph (no larger than 3 inches by 4 inches), or a table (no more than 3 data columns and/or 3 data rows). Do not indent or use abbreviations in the title. Do not start a new line for authors. State the authors' names (initials followed by last name), institutional affiliation, city and state (or country). Underline the name of the author who will present the abstract.

2) Begin the body of the abstract on a new line indented three spaces. Abbreviations within the body should be kept to a minimum and must be defined upon first use in the abstract by placing the abbreviation in parenthesis after the represented full word or phrase. Non-proprietary (generic) drug names are required at first mention of the drug.

3) Abstract length: The entire abstract, including title, authors, institutional affiliation, city, state, and text, including any tables or figures should be a maximum of 350 words and must fit within the space provided. It is your responsibility to verify compliance with the length requirement. Abstracts longer than the 350 words risk being disqualified from judging or publication in Substance Abuse and will be penalized during consideration for awards.

2010 Call for Abstracts

ABSTRACT GUIDELINES

4) Abstract structure

- **Research Presentation:** Research abstracts include the following headings underlined in the text:
 - Background - describes the research context
 - Objective - describes the research objective
 - Methods - describes research methodology used
 - Results - summarizes findings in sufficient detail to support the conclusions
 - Conclusions - states the conclusions drawn from results, including implications. It is not acceptable to state “The results will be discussed” or “Other data will be presented”

- **Program and Curricula Evaluation:** These abstracts must have the following headings underlined in the text:
 - Background - describes the educational or programmatic context
 - Objective - describes the program or curricular objective
 - Methods - describes the target population, program or curricular content, and evaluation method
 - Results - summarizes evaluation, including outcome data
 - Conclusions - states the conclusions drawn from results, including the applicability of the program/curriculum.

- **Clinical Case Presentation:** These abstract must have the following headings underlined in the text:
 - Background - describes the case context
 - Learning Objectives - states learning expectations from the case presentation
 - Case Presentation - summarizes the case
 - Discussion - summarizes salient facts/teaching points from review of the case and the relevant literature

Review Process: The Abstract Review Committee is made up of volunteer AMERSA members and includes representation from many AMERSA professional disciplines, such as: nurses, physicians, psychiatrists, psychologists, and social workers. The Committee is blinded to authors and institutions. Each committee member will rank each abstract in the following four categories:

1. Importance to fields of substance abuse and medical education
2. Focus and clarity of presentation
3. Quality of methods and
4. Innovation

Acceptance for presentation will be determined based on Committee rankings and consideration of time and space for oral and presentation formats. Typically, abstracts with higher rankings are invited for oral presentation. Authors may indicate their own presentation format preference at the time of submission.

In order to encourage broad and timely dissemination of research results and innovative programs, abstracts presented elsewhere are acceptable for submission and presentation at the AMERSA Annual National Conference PROVIDED that:

- 1) a manuscript reporting the same or similar results has not been accepted for publication,
- 2) the previous presentation occurred within the last 12 months of the AMERSA Conference abstract submission deadline, May 28th, 2010.
- 3) the abstract was not previously presented at an AMERSA Conference.

All applicants will be notified of review decisions by August 1st. Please direct further questions to the Abstract Chair, Alexander Walley, at awalley@bu.edu.

Awards: The Abstract Award Committee, consisting of the Abstract Chair and two AMERSA Board Members, will select three abstracts of the highest rated abstracts, one “best” abstract and two runner-ups, to receive special recognition, complementary conference registration, and be presented orally at the Best Abstracts Plenary.

2010 Call for Skill-Based Workshops

The 2010 meeting will again feature two sessions of Skill-Based Workshops, each session will be one and a half hours in length. Skill-Based Workshops allow for interactive learning around a specific topic. The emphasis will be on skills development as opposed to dissemination of information in a lecture format. We are also interested in any topics which relate to clinical practice, education, or research in any field related to substance abuse, as well as workshops emphasizing community action. The most effective workshops provide participants with the chance to practice a concrete skill which they can then introduce into their teaching, practice or community activity following the meeting. Workshops can either be submitted electronically to www.amersa.org or by completing this form and mailing with ten blinded copies to the AMERSA National Office. All applicants will be notified of our decision by August 1st. Special recognition will be given for the Best Workshop. The Workshop winner will receive an award and free conference registration for the 2011 conference. Please feel free to email the Workshop Chair, Celeste Wilson, MD at celeste.wilson@childrens.harvard.edu if you have any questions.
