34th Annual National Conference

“P.R.E.P. for the New Decade – Policy, Research, Education and Practice”

November 4 - 6, 2010
Doubletree Hotel
8120 Wisconsin Avenue
Bethesda, Maryland

Jointly Sponsored By

Funding for this conference was made possible (in part) by 2R13 DA015046-09 from the National Institute on Drug Abuse. The views expressed in written conference materials or publications and by speakers and moderators do not necessarily reflect the official policies of the Department of Health and Human Services; nor does mention by trade names, commercial practices, or organizations imply endorsement by the U.S. Government.
Conference Objective

At the end of this conference participants should be able to:
• Demonstrate innovative teaching and clinical skills
• Discuss scientific advances in prevention and treatment of addiction
• Continue collaboration and mentoring relationships with professional colleagues
• Discuss current approaches to implementation research, patient privacy, and chronic care aspects of addiction

AMERSA’s Mission

AMERSA, founded in 1976, is a multidisciplinary organization of health care professionals dedicated to improving education in the care of individuals with substance abuse problems. AMERSA’s mission is to:
• Provide leadership and improve training for all health professionals in the management of problems related to alcohol, tobacco and other drugs.
• Disseminate state-of-the-art scientific information about substance abuse education and research through the National AMERSA Conference and the organization’s journal, Substance Abuse.
• Provide mentoring for health care professionals interested in becoming teachers, clinicians, and researchers.
• Promote cultural competence and inclusiveness among health care professionals in their work with individuals affected by alcohol, tobacco and other drug problems.
• Promote collaboration among multiple professions including, but not limited to, medicine, nursing, social work, psychology, dentistry, pharmacology, public health, and allied health.
• Build a national network of substance abuse experts who can advise local, national, and international organizations on health professional substance abuse education.

**AMERSA Task Forces**

Task forces are groups, meeting for a period of several months or several years, to achieve specific goals and objectives related to the AMERSA mission. All meeting attendees are invited to participate in task force meetings. AMERSA members who wish to apply for task force status should stop by the registration desk. AMERSA currently has one task force: Physician Education. A major goal of this task force has been the facilitation of required training in substance use disorders for all primary care residency programs.

**Special Interest Groups**

Special interest groups, less structured than task forces, provide an opportunity for attendees to have a focused discussion on topics such as Nursing Initiative, Social Work Initiative, Addiction Medicine Fellowships and Health Reform, Harm Reduction. All meeting participants are invited to attend these discussions.

**One-on-One Mentoring**

This one-on-one session is an opportunity for selected individuals to meet one-on-one with national leaders in the field of alcohol and other drug abuse. This session is designed for consultation on career development and/or research, teaching, and related issues. Mentors are interested in meeting, learning about and providing guidance to less senior members of the organization. If you would like to schedule time to meet with a mentor, please stop by the registration desk. A list of this year’s mentors and areas of interest is included in your registration packet.
