Funding for this conference was made possible (in part) by a grant to the AMERSA National Conference 2R13DA15046-16 from the National Institute on Drug Abuse. The views expressed in written conference materials or publications and by speakers and moderators do not necessarily reflect the official policies of the Department of Health and Human Services; nor does mention by trade names, commercial practices, or organizations imply endorsement by the U.S. Government.
AMERSA’s Mission

AMERSA (now the Association for Multidisciplinary Education and Research in Substance use and Addiction), founded in 1976, is a non-profit, professional organization whose mission is to improve health and well-being through interdisciplinary leadership in substance use education, research, clinical care and policy.

Conference Objectives

At the conclusion of this educational activity, participants should be able to:

• Utilize newly obtained skills in teaching and clinical approaches.
• Apply knowledge of existing research and research gaps to implement innovative research programs in the field of substance use.
• Apply new scientific advances to teaching and clinical experiences.
• Understand substance use-related policy and apply it to teaching or clinical opportunities.
• Make use of mentoring opportunities to expand clinical, teaching and/or research opportunities.
• Understand the need for collaboration in successful programming.

Special Interest Groups

Special Interest Groups provide an opportunity for attendees to have focused discussions on various topics including research, practice, and education. Currently, there are five AMERSA Special Interest Groups: Nursing Initiative, Physician Interest Group Initiative, Social Work and Behavioral Health Initiative, Medication for Substance Use Disorders and Adolescents and Young Adults. All meeting participants are invited to attend one of these interest groups on Saturday. Breakfast from 7:00am - 8:30am.

Mentorship

One-on-one mentoring sessions are an opportunity for attendees to meet with national leaders in the field of substance use. Mentoring can focus on career development, research, teaching, and related issues. If you would like to schedule time to meet with a mentor, please stop by the registration desk. A list of this year’s mentors and areas of interest is included in your registration packet.

43rd Annual National Conference Program Planning

All attendees are invited to nominate topics and speakers for next year’s conference program. During this year’s conference, plan to join us for the program planning luncheon (if you have pre-registered) on Friday, to discuss and recommend enthralling speakers, cutting edge topics, or thorny dilemmas in addiction medicine, then advocate vigorously for your choices. After the conference, suggestions can still be sent to the 2019 Program Co-Chairs, Claire Anne Simeone, DNP, MSN, FNP, RN, at clairesimeone@icloud.com and Scott E. Hadland, MD, MPH, MS at scott.hadland@bmc.org before November 30th for consideration.
